ABOUT OUR INSTITUTION

Foundation for Innovative Research in Science and Technology is an eminent research center for learning, research and extension activities. First Trust is established in 2017 which thrust its research towards Life sciences. Our organization is a registered NGO in India, working on special projects and social support to the under privileged community to protect them and empower them to be self-sufficient in the future. The main objective of our center is to promote research aptitude and Social commitment. We have been carrying out various programs designed meticulously after careful analysis of various socio economic problems of sustainable development of the community.

ABOUT THE WORKSHOP

This workshop aims to bring together B.Sc and M.Sc Life Science Students to share and disseminate knowledge and Scientific research works. Students need to develop lifelong learning skills, including the ability to find, evaluate, and apply information to unfamiliar problems, understand the nature and importance of scientific inquiry as a human endeavour and appreciate the role of science in society and in their personal lives. Our goal was not just to address interesting social and personal concerns but to help students apply their new scientific skills and understanding in their decision making and to expand the range of issues and scientific ideas that they saw as relevant. This workshop educates to evaluate the usefulness of a product and learn how it might be used in their application.

THURST AREAS

B.Sc , M.Sc, Student from Microbiology , Biotechnology, Biochemistry, Nanotechnology, Pharmacology, Botany departments .
